In IVRushmore american character, I'm representing freedom! Daily I'm representing 'freedom homelife' liberty-integrity- fraternity- equality from the long art of culture in people chosen universal principles from Ancient Age yang/yin equality, Meditation Age tolerance-truth-compassion, Republican Age French words liberte-egalite-fraternite materialized on Mount Rushmore in U.S. presidents Jefferson- Lincoln- Washington- T.Roosevelt, and lived by democrats everywhere with our without chosen rushmore P.M./ Pres. in Information Age. We, the people, embody/ enhance/ expand chosen universal principles of universal experience. With every *civilRepublican* conscious democracy citizen can be loved prime minister/president representatives who embody one or more ideas- social spirits- universal principles of freedom homelife in human heritage's cultural democracy. When the *socialMeditation* chosen '4principles' are modeled by people chosen great citizens of country family, they are called *civilRepublican* 'rushmore representatives' of 'freedom homelife'. Artistically chiseled on Mt. Rushmore are tolerant LIBERTY Jefferson/ truth INTEGRITY Lincoln/ compassionate FRATERNITY Washington/ EQUALITY-T.Roosevelt. Dakota's Mt Rushmore remembrance is repeated on U.S. coinage, too: nickel LIBERTY Jefferson/ penny INTEGRITY Lincoln/ quarter FRATERNITY Washington/ dime EQUALITY FDRRoosevelt. Let's see the many expressions of unique rushmore representatives from all democracy countries unfold. Affirm seasonal social behavioral freedom homelife in principles: summer liberty- autumn integrity- winter fraternity- spring equality. Now democracy is me embodying in principles social citizen culture.

Civil homelife citizen people live in independent republic and represent cultural democracy daily. To decide policy and run our government we have chosen citizens, elected officials, policymakers. Public officers serve at the pleasure of their constituency- we- the voters who elect them to public office. Complaints about government mean we are not doing our job of people-rule democracy through our chosen representatives. Suffrage- voting- electing representatives to federal, state, and local paid public service is our job. Citizens of some republics have broader electoral opportunity than others. Citizens don't usually vote for their king or queen. Party members only in parliament [congress] select prime minister. In freely elected public officials is democracy. Being included in citizenry, you are equal under common law, represent your country family, vote during elections, and have the right to run for government office. Small elites with connections to family, religion, business, and military can and do put democracy under hierarchy when citizenry is not careful.

? ? ? ? ? ? ' Long Live Democracy !'

Long live democracy, citizen rule.

Outside in me, strength-n-beauty

In the natural order live all.
