AMERI

With Meditation- medieval Age [500BCE-500CE-1400CE] we get social citizen culture, *socialMeditation* 'homelife' ['cultural democracy's human heritage']. *AMERI Ages* is same social values with **Meditation** cultured and medieval religious. To **meditate** natural order '4principles' becomes the social self-evident human behavior: tolerance liberty/ truth integrity/ compassion fraternity/, Ancient yang/yin equality! Oh, Logos! [logical ideas] This social ideology of Cultured North Asian teachers becomes social theology of Religious South Asian clergy!

We want survival in afterlife heaven home's *tolerant* eternity. Accepting *equality* that we're all sinners, we sacrifice blood [Middle Easterner] or milk [Middle Indian] 'in the name of God' pray forgiveness, and do *compassionate* charity. For soulful *truth*-purity we pray, praise, and believe God's intervening miracles and unchanging *Word of God* revelation. Ancient then medieval middle famili religions [Vedic/Torah] have clergy story.

We want survival in nature home/human home. Accepting 'in principle' *equality* of Life Ancient good yang / bad yin inseparable with humans, we grow the common good yang. We think/feel and do in *compassionate* principle-Greek 'agape'-Chinese 'ren'-Buddha 'right'-[French fraternity]. In *tolerant* asking Nature, we grow inward integrity/ outward honesty, our *truth* in Timeless Truth by understanding without addictions natural rational '*Book of Life*'-Nature-universal experience-*Logos*. All Ancients then *socialMeditation* european/renien famili cultures have human story.

Meditation Age social behavior begins 'freedom life' search in natural law & order Nature of universal experience physical/social among the Cultured North Asians 500BCE with Confucius-Buddha-Classical citizens [and Thales] who come together in '4principles'. *Confucians* establish social human home in 'ren', [first word for 'humans with humanity' seen in ren reciprocity principle *Analects 15: 24*]. *Buddhists* establish social human home in 'right' action from cause-n-effect. *Classicists* establish social homelife citizen culture in 'the common good [agape]' asking citizen scientist/philosopher. From Classical citizen *Pericles Funeral Oration* [431BC Athens] to medieval English *Magna Carta* [15Jun 1215 England] cultured people affirm the same social code or social protocol in natural ideas-social spirit-universal principles.

'Social Homelife' ['Homelife' is 'human heritage in cultural democracy']...

- ✍ *tolerant* homelife *liberty* overcomes powers violent and superstitious.
- ✍ *truthful* homelife *integrity* puts ones truth in Timeless Truth, ones civil law in principled natural law.
- ✍ *compassionate* homelife *fraternity* does 'the common good' with natural laws teachers of Confucian 'ren' reciprocity and Buddhan 'right' action as well as with Classical Greek principled citizens in 'agape' .
- ✍ *yang/yin* homelife *equality* is good/bad universal Life, works economical, studies education rational.

Winter is season of compassion. Spring is season of equality. Summer is season of tolerance. Autumn is season of truthfulness.

SocialMeditation culturalist and socialmedieval religionist say 'Help. Don't hurt.' Cultured [in natural law principles of universal experience understanding with US all in reasoned thought] and religious [in personal prophecy of national prophets with intervening God revelation belief] say you are here to help. Confucius writes, 'Do not do to others what you would not have done to you.' Stated positively it becomes religion's NT 'Golden Rule'. Religious South's theology appropriates Cultured North's ideology, magnifies **its own** agents of change, and skews from natural culture to supernatural religion: Hindu honors Buddha as 9th Avatar, Israeli honors rabbinic/Socratic Jesus as Messiah. Cultured North agents of change are Confucius-Buddha-Classical citizen. Religious South agents of change are 9th Avatar-Messiah-Mohammed. Cultured ideology/ religious theology say socially to help.
